ABSTRACT

Ayurveda system of health restoration comprises many streams for the management of different diseases. Ayurveda encompasses several therapeutic options for different age groups and in this regards Ayurveda suggested many approaches for pediatric care (management of *Balaroga*). *Balyavastha* or childhood is stage of life which needs special care due to the lack of strength and immunity. *Ahara, Vihara and Aushadhi* are some Ayurveda measures which help to maintain strength in *Balyavastha*. There are many drugs (*Aushadhis*) mentioned in Ayurveda classics which provides therapeutic response in health issues of childhood age. *Kumarkalyana Rasa* is one such Ayurveda drug used as pediatric medicine. This drug used for breathing problems, fever, cough, jaundice, digestive problems, diarrhea and others problems in children. Present article emphasizes Ayurveda perspective of Kumarkalyana Rasa and its therapeutic significance in Balaroga.

Keywords: Ayurveda, Balaroga, Kumarkalyana Rasa, Pediatric.

1. Introduction

Kaumarayabhritya is branch of Ayurveda which deals with Balaroga means disease of childhood age. The Ayurveda pediatric care deals with infant feeding, neonatal care, diet regimen for newborn child, seasonal regimen for children and nutritional care. The children are susceptible towards the health ailments including respiratory infections, skin problems, digestive problems and infection of intestinal worm, etc. These diseases arise due to the disturbances of Doshas namely; Vata, Pitta and Kapha. The Kapha Dosha mainly dominant in Bala Avastha therefore most of the diseases in childhood age arise due to the vitiation of Kapha dosha. The diminished state of immunity and Dhatus in Bala Avastha make children prone towards the many pathological conditions. Therefore Ayurveda suggested many approaches to restore immunity and strength of children. These Avurveda modalities help in the prevention and treatment of pediatric diseases. There are many drugs used in Ayurveda therapeutic for pediatric care and Kumarkalyana Rasa is one such drug which enhances immunity, resist respiratory

infections, helps in *Jwara*, *Kasa* and *Shwasa*, etc. (1-3)
